

Greatest and Best Production by the Coleman Players

# "IT PAYS TO ADVERTISE!"

Coleman Opera House, Friday, April 24, sponsored by Vestry of St. Alban's Church. Secure Reserved Seats Early at Rushton's Store.

Overture by Mason's Orchestra at 7.45 p.m.

Curtain at 8.15 p.m.

## George Janak Passed Away on April 8th

George Janak, a resident of Coleman since 1905, died on April 8, aged 54 years. He had been ailing for a considerable time, having undergone two or three operations. Some four years ago he was injured in the International mine.

He came here from Czechoslovakia, and his wife came a year later. Besides his wife, he is survived by his sons Louis and George, and daughters Cecelia (Mrs. Steve Natchel), Barbara and Lena.

The funeral was held on Sunday, April 12, the service being in Holy Ghost church, Rev. Fr. Lehman officiating, and the F. C. S. U. fraternal society attended in a body.

Mrs. Teresa Janak and family desire to thank their friends for sympathy extended and those who kindly sent flowers and loaned cars for the funeral.

## Pass Clean-Up Week Started

Natal is this week exhorting its citizens to clean up the accumulations of Winter rubbish, notices having been posted by the health board of that town. According to H. S. Nelson, of the British Columbia provincial police, is supervising and the effort will be extended to Michel, the neighboring centre, a town which has its back yards abutting on the public highway.

## "It Pays to Advertise"

Oh where is our wandering Countess—was she sunk in mid ocean, or hit by a taxi? Pease has all the sign boards in the country plastered with "13 Soap" ads. Mary has 133 trucks in the hawk, and the Countess has 50 000 Frank's for the French rights. Is she pulling a fast one? Dirty work at the cross roads, maybe "13 Soap" (luckily for dirt) can clear it up. Does Rodney trim old man Martin for half a million with a ten per cent. drag for Mary? See this amazing farce based on the varieties of modern advertising. A scream for every cake they sell, and they have one order alone for 50,000 cakes. Be sure and keep the date in mind, Friday, April 24th, at the opera house, Coleman. A great show and a great cast of amateurs, under the able direction of A. E. Graham, who have entertained you on many previous occasions. Don't pass this up; it's bigger and better than ever. Seat sale at the post office, Mr. Grogan at the bank, or at Rushton's store. Get your reserved seats early.

Dr. McLeod wishes to call the attention of Journal readers to a splendid article on care of teeth, especially children's teeth, in the May issue of Physical Culture. The article is entitled "Are Bad Teeth Inherited?" by Dean Owe of Columbia Dental School.

## Increasing Discontent Among Unemployed Becomes More Acute as Indifference of Federal Government is Noted

Premier Bennett's Attitude on Situation and Refusal to  
Call Conference Resented by Large Section  
of People Throughout Canada

Why do men and women parade with the Red Flag? It is because of increasing discontent among the workers. Over six millions out of work in the United States, hundreds of thousands in Canada, four millions in Great Britain, and varying numbers in other European countries, show without doubt that there is cause for discontent. People in want cannot be anything else but discontented and rebellious when they see others wallowing in the lap of luxury.

In our Federal government making a determined effort to deal with the situation? 98 members have spoken at Ottawa in the debate on the reply to the Speech from the Throne, weeks have been frittered away in useless debate, and not an hour given towards seriously considering the unemployed and their problems. The only serious effort was that of J. S. Woodsworth, Labor member for Centre Winnipeg, who spoke for 40 minutes, the limit of time allowed under the House rules. When Peter Hrenar asked that a conference be called he was voted down in the house, and Premier Bennett said there was no necessity to call a conference at this time.

Of all the millions of unemployed, there must be a large percentage who would work if they had the opportunity. There is a limit to the endurance of the people, and Governments are placed in office to administer for the whole of the people. If they do not fulfil their mission in this respect, then people will demand a change, new leaders will arise, and the old order will certainly be changed. Stand patterns may call such ideas revolutionary, but if the existence of the people is ignored, then necessity will compel them to demand a change of the present system so that all who desire to work may do so.

Sir Henry Thornton, who on Friday night addressed the Winnipeg Board of Trade, said there were two kinds of people who were menaces to society. They were the destructive radicals who would destroy, and the reactionaries who stand pat, always opposing change or progress. Sir Henry may speak very complacently as one who draws from the government rail ways of Canada a salary of \$85,000 a year, but he does not come forward with any attempt to advise how the existing problems may be solved. Too many in high places with salaries which place them far beyond the faintest shadow of want and hunger hand out this "soothing syrup" but it does not accomplish anything, in fact it irritates those who are in want. If political party leaders would demonstrate a little more by their example that they are in earnest in trying to solve present-day economic problems, their words might be given

heed to. Instead, people frankly state it is just so much "bunk."

The present system, whereby millions are unemployed cannot continue. All movements for reform have come from the ranks of the people. Even women had to fight for votes in the face of fierce opposition and police persecution. Yet today it would be considered preposterous if they were denied the privilege of voting.

Review history through the centuries, and there will be found countless instances of reforms for the well-being of the masses originating in the ranks of those who suffered from the inequalities of a system which oppressed and exploited them. Hours of labor and profits of labor have got to be more evenly distributed before we can have happiness and prosperity in the countries of the world.

## Support the Railroad

There is a point to remember in connection with motor and rail transportation by the people of the Crow's Nest Pass. The existence of all towns from Fernie to Bellevue, embracing several thousands of people, depends entirely on the mining of coal. Eliminate the need for coal by railroads and manufacturing concerns, and there would be no more business for mining companies and all other businesses which depend on the coal industry.

## Caledonian Society Postpone Social

Owing to the play on Friday night, "It Pays to Advertise," the committee of the Caledonian Society have kindly postponed their monthly social, which will be held a week later on Friday, May 1.

## ST. ALBAN'S CHURCH

Next Sunday, the 3rd after Easter, services will be:  
2 p.m., Sunday School.  
3 p.m., Adult Bible Class.  
7 p.m., Evensong and Address.

Rev. Fr. Florian, S. V. D., was the guest of Rev. Fr. Lehman over the week end. He is on a special mission from Czechoslovakia and is an accomplished linguist and a traveller of wide experience. He gave a lantern lecture in the Catholic parish hall on the mission work of the Catholic church in the French Congo, which proved highly interesting. He has received an invitation to go to Alaska on special mission work for the church. He has travelled widely throughout Canada, and knows it much better than most Canadian people.

Mrs. A. E. Gurdard was a visitor to Calgary during the week end.

## Dental Contract Renewed

The contract between Dr. A. D. McLeod, dentist, and the school board has been renewed, for one year. Under the terms of the contract school children requiring dental treatment are given free service. The work is to be done on school days only. Coleman school board is to be commended for its decision to continue the dental clinic, for children who otherwise might through circumstances have to suffer from neglect of the teeth will now be cared for.

## Parade With Red Flag

Coleman and Bellevue saw demonstrations by the Unity League of Canada on the 15th, when parades of the streets were made by men and women, headed by the red flag. A. Gray of Calgary and John Stokusik of Coleman were the speakers, and Roddy McLeod was a persistent heckler who asked some pointed questions.

Work is very quiet, which has the effect of causing quite a tense feeling among the unemployed.

Since a local store placed cash "yo yo" toys, this latest craze has become the rage. Children on every street, in school playgrounds, and in every home are playing "yo yo," and so dangerous is it that even adults are smitten with the effort to make the little grooved circular piece of wood run up the string and run down again.

## Notes on Play "It Pays to Advertise"

Savon Treize—pas bon pour sa!—c'est bien, c'est bien. Au revoir Mr. Martin—vous êtes trop aimable—Je vous remercie beaucoup de votre politesse. O—So long Ambrose old kid, call me up some time—Madame la Comtesse de Beaurien, played by Hilda Clifford.

I say, I do find business very confusing—how do you work this phone?—I'm not much at mechanical problems—heavily tore—Ellery Clark, played by Fred Gurdard.

Oh! Mr. Martin, the landlord wants his rent P. D. Q.—Miss Burke, played by Kathleen Milly.

You may be in the soap business, but you can't soft soap me. I'm going to shoot you all in the blink—Donald McLeod, played by A. S. McIntosh.

Oh why doesn't God give young men some sense about women.—Census Martin, played by R. F. Barnes.

I can't make the Countess comprehend anything I say, she just sits and waits—Johnson, played by Maurice W. Crake.

Read the article on page two entitled "A New Order Prevails." It in part shows some of the reasons why the world-wide depression exists.

### A New Order Prevails

In the business and financial section of one of the most conservative (speckled with a small "c") papers in Canada we find the following paragraph:

"That our present economic scheme is seriously at fault surely no reasonable person will deny. The existence of hunger and want in the midst of plenty—the fact that the existence of this abundance of supplies is itself responsible, at least in part, for our present condition, surely constitutes uncontrovertible evidence of our economic unsoundness.

"Argue as we may as to the respective responsibilities for the current depression of the various immediately contributory factors such as over-production and under-consumption of commodities, shortage of gold, hoarding of gold, demonetization of silver, tariffs, war debt, etc., the fact remains that our present economic system doesn't work. It functions increasingly poorly even in 'good' times; its breakdown is immediate and shocking when bad times recur."

The fact that Big Business, our industrial magnates and captains of finance, as well as the workers, now recognize this fact is, perhaps, the most hopeful sign of all. There was a time when everybody everywhere accepted "bad times" as inevitable sooner or later. But not now. The world is at last coming to a realization of the truth that many of our economic ills are largely man-made, and, therefore, capable of both prevention and cure by man-made methods. Cure and prevention will not be brought about by any one magic formula, nor can it be accomplished overnight. The process of developing solutions may be slow and painful. We will probably have to discard many pre-conceived ideas, and accept policies formerly rejected as impracticable and utopian.

For example, there is a growing acceptance of the fact that the old idea of nationalism as opposed to internationalism must give way. The Great War has taught all nations at least one lesson, namely, that no nation can live unto itself alone; that, on the contrary, each nation is dependent on other nations whether they like it or not. Recognition of this fact led to the creation of the League of Nations to direct the world's thought in relation to matters of peace and war. Deliberations of the League Assembly soon revealed that the issue of peace or war was not confined to the solution of racial problems, or the adjustment of boundary disputes, or the eradication of designs by one nation on another for purposes of gain and glory. The maintenance of peace, or the outbreak of war, was found to depend, in many cases, upon the illiteracy of a people, upon the social conditions under which they lived, upon their sharp contrasts of great wealth on the one hand and grinding poverty on the other, upon their ability to sell and buy what their necessities demanded they should buy. Hence the League of Nations today is actually studying every conceivable subject in relation to the welfare of all nations and races.

This lesson was not learned at once, and immediately following the Great War, nations everywhere adopted policies with a view to making themselves self-contained. Where one adopted policies to that end, others followed. Instead of recognizing and profiting by the lesson taught by the war, they ignored it and went to extremes. That is one of the outstanding reasons for and causes of the present world depression and stagnation in business. A man conceivably can live and eke out an existence on his own farm, refusing to have any relations whatever, business or otherwise, with his neighbors, but he will deny himself all the enjoyments, refinements, and many of what we now regard as the necessities of life. Never will he become prosperous. And so it is with nations.

As Miss Agnes McPhail, M.P., told the recent Teachers' Convention in Saskatchewan, the world is facing an entirely new order. Instead of confining our thought and our policies to an extreme nationalism, we must become internationally minded. She declared that most people were internationally illiterate, and were not conversant with conditions existing in the world and the relation which one part bears to the other. People have not kept pace with the trend of the times, whereby the day of the self-contained and independent nation has given place to a new era of inter-dependence of nations. And because we have not realized how completely the world is inter-dependent, we are still trying to solve our problems with yesterday's methods. They won't work because the world has moved to a new condition; the old is gone forever.

We must take that lesson to heart, and govern ourselves accordingly. We cannot be prosperous if other nations are not. Their prosperity is absolutely essential to our own well being.

### Find Centuries Old Trees

Discovery Is Made Of Ancient Buried Trees In Quebec

Quite recently some white birch trees which had been buried for centuries were discovered in the vicinity of the village of Rivière St. Jean, Quebec, by a field officer of the Topographical Survey, Department of the Interior. The remarkable thing about

these trees was their state of preservation. Specimens were presented to the Forest Products Laboratories, Department of the Interior, at Ottawa, whose officers state that preservation was due to a surplus of water and a deficiency of air, conditions inhibiting the growth of wood-decaying fungi.

### Better Fertilizers

Demand For Fertilizers Containing Highest Percentage Of Plant Food

The Dominion Seed Branch reports that the volume of fertilizer sold in Canada increased from a total of 50,000 tons in 1924, to about 225,000 tons in 1929. Increased tonnage, however, is not the whole story. The average analysis of mixed fertilizer sold in 1924 showed about 14 per cent. total plant food as compared with about 30 per cent. in 1929, so that the actual plant food sold in mixed fertilizers in 1929 was at least eight times that of 1924. The trend seems to be toward higher analysis fertilizers containing less filler and more plant food at lower cost to the farmer. The trend in demand, also, is for the fertilizer containing the higher percentage of plant foods.

### Good News For Aviators

Device To Keep Ice Off Wings Of 'Plane Is a Success

Victory was reported at Akron, O., over one of the aviator's most dangerous enemies—ice that forms on the wings of his aeroplane and sometimes causes it to be wrecked.

Through low-hanging clouds, at freezing temperature and an altitude of 2,000 to 3,000 feet, Charles Meyers, of Cleveland, piloted his aeroplane, which was equipped with rubber "overshoes."

The overshoes—pouches of a specially treated rubber fabric fitted over the leading edges of the "plane and wings and struts—were made to "breathe" as the ice formed on them. As they breathed the ice crumbled away.

The inflation and deflation, which worked like a man's lungs, were created by a motor-driven air pump in the cockpit.

### SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an important dress—lost color so completely that it was not wearable. A friend who had imported it asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 10c—the price of one package of Diamond Dyes.

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be so they always go on smoothly and evenly. They never spot, streak or run; and friends never know the things I dye with Diamond Dyes are dyed at all."

Mrs. R. P., Quebec.

### Reciprocal Trade

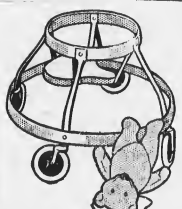

Would Refrain From Advertising Dominion Products In Britain

Rt. Hon. J. H. Thomas, secretary for Dominion Affairs, was asked by a questioner in the British House of Commons to consider the advisability of refraining from further advertising Dominion's produce on Empire Marketing Board hearings in Britain, "until a scheme is evolved whereby similar advertising of British goods can be shown in the Dominion."

The minister replied in the negative. The questioner, he added, "is asking me to agree to something that would be a violation of the bargain we have made with the Dominions. I am endeavoring to ask them to reciprocate in other ways, but to say that unless you do it we refuse to give you the effect of our part in the bargain, is rather wide."

As a vernacular effective preparation is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

All-Glass House In Japan  
 An all-glass house that is asserted to exclude air, dirt and bacteria, has been built by a scientist in Japan, ventilation being provided by air pumped from a distant point through filters.

**When BABIES are Upset**

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tough? Have you a bottle of Castoria ready?

For the protection of your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

W. N. U. 1885

### Ontario Cancer Commission

Treatment Of Cancer By Radium Will Be Subject Of Inquiry

The treatment of cancer by radium will be the subject of an inquiry by a royal commission, Hon. Dr. J. M. Robt, Minister of Health, announced in the Ontario legislature. The announcement led to an unqualified condemnation of the use of radium by the former minister of health, Hon. Dr. Forbes Godfrey. Dr. Robt's desk is in the House.

It was a case not only of doctors disagreeing, but of ministers of health and Conservative front-benchers disagreeing and the incident created a distinct sensation in the House. Forgotten soon to the effect that Dr. Godfrey had left the Ontario cabinet partly because of a disagreement with former Premier Ferguson on the question of radium were recalled.

"Cancer is a public health problem," said Dr. Robt. "It can be checked if it is caught in time. Early treatment is the great secret and if we are going to use radium we have to concentrate on that. Those who have studied the question in this province feel we should have more radium."

I have the authority of the prime minister to say that a royal commission will be appointed to look into the matter and when the commission makes its report some definite policy will be announced on the matter. "Whether the government should step in and purchase a quantity of radium for treatment of cancer patients in Ontario was something which would be decided when the commission brought in its findings.

"I am sorry to have to disagree with the minister, but I must do so most emphatically," said Dr. Godfrey. "Cancer is hereditary. Treatment by surgery, X-ray and radium have all proved dismal failures. I am entirely opposed to the use of radium. If I am ever so unfortunate as to become cancerous I would die of cancer in preference to death from radium."

## Wonderful For Indigestion!

When your stomach feels bad; when Gas, Sourness, Nausea or after-eating distress or indigestion troubles you, a single dose of pure Bismuth Magnesia will relieve you. It is the most effective and pleasant remedy for indigestion. For indigestion, the most effective remedy is Bismuth Magnesia. It is a wonderful remedy for indigestion. It is a wonderful remedy for indigestion. It is a wonderful remedy for indigestion.

### SELECTED RECIPES

#### FLOHADA PIE

- 2 cups pineapple diced.
  - 3 tablespoons butter.
  - 3 tablespoons Benson's Corn Starch.
  - 1 cup coconut.
  - 1 cup sugar.
  - 4 egg yolks.
  - Juice and rind of 1 lemon.
  - 1 teaspoon salt.
- Blend the sugar with the corn starch and add to the malted butter. Stir in the other ingredients and cook until thick in a double boiler. Put in a baked dish and cover with meringue.

Persian Balm is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestige of stickiness. Swiftly absorbed by the tissues and stimulates the skin. Persian Balm is the perfect toilet requisite. Every woman will appreciate the subtly distinctive charm achieved by the use of this magical lotion.

### Homesteading Limited

Areas In Alberta and Age Of Homesteader Specified  
 Alberta will permit homesteading in certain specified areas but restrict this to persons of the full age of 17 years, British subjects or with the intention of becoming British subjects who have resided in the province for a period of at least three years.

Regulations to this effect were approved by the Provincial House before the House prorogued, when the new Alberta Lands Act was finally passed.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition, not favorable to worms, and there will be no revival of the pests.

The Boston Post Road, originally an Indian trail between New York and New England, was outlined by the first official post rider in 1678.

The leaning tower of Pisa was never upright, because the foundation began to sink before the construction was completed.

### An Unfamiliar Country

Few Canadians Know Very Much About Argentina

Canada stretches across the north half of North America. Argentina occupies the greater part of the southern extremity or "tail" of South America. Argentina's length from north to south is approximately two-thirds of Canada's from east to west. Its population is perhaps a million greater than Canada's. Its largest city, Buenos Aires, is three times the size of Toronto, and with its 2,225,000 inhabitants, ranks as the world's eighth. They are (in millions of population): London, 7.74; New York, 6.93; Berlin, 4.01; Chicago, 3.37; Paris, 2.83; Osaka, 2.40; Tokyo, 2.29; Buenos Aires, 2.22. Argentina has four other cities larger than Hamilton, Ont., ranging in population from 160,000 down to 170,000, whose names (Rosario, Cordoba, Avellaneda, and La Plata), are quite unfamiliar to the average Canadian reader. But the opening of the British Trade Exposition in Buenos Aires, and the visit of the Prince of Wales to Argentina, has drawn all eyes to that far and unfamiliar country.—Toronto Star.

### Volume Of Eskimo

Poems Just Published

Translated Into English By Arctic Explorer Should Be Interesting

Knud Rasmussen, the Arctic explorer, has sprung a surprise upon the world.

He has celebrated his return to civilization, after many years of wandering in the wilds, by publishing a volume of poems by Eskimos.

It will be interesting to see the poems in English. We may be sure Rasmussen has presented them worthily in print, for, with his European education, he has the advantage of being himself half an Eskimo, and so thoroughly understands his subject.

It seems natural for primitive people to talk of wild picturesque poetry, unimagined, but full of beauty and imagination, such as we see fixed for all time in the musical names which the Red Indians gave to rivers and lakes and mountains in their native land.

It will be remembered by some that scholars have declared the Eskimo language contains only about two hundred words which should add greatly to the labors of the poets.

It has been estimated that 12,000 typhoid bacteria laid end to end would make a line only an inch long.

Douglas' Egyptian Liniment is recommended for sore necks, galls, discomers, calluses and sprains. Removes pread flesh and Hoof Rot. Stops bleeding instantly.

London men are wearing crimson hats.

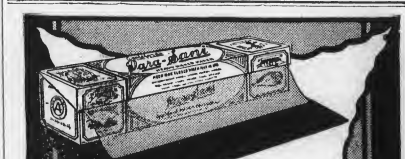

### Was Weak and Run Down

Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezanston, Alta., writes—"I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper.

Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Appleford Paper Products

Lift off - No Pain!

QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and it comes all the pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

## BANK CREDITS FOR FARMERS UNDER REVIEW

Ottawa, Ont.—"The way has been opened for closer co-operation between the banks and the governments," declared Premier J. E. Brownlee, of Alberta, commenting on the conference held here between representatives of the chartered banks, Dominion Government, and governments of the three prairie provinces. Matters relating to bank credits, especially as they affect farmers of the west, were discussed. Only the broad principles relating to credits were under review. Premier Brownlee said he was satisfied with the results and was hopeful that the basis of a working agreement would be established. He intimated there will be further conferences held between the provincial governments and western executives of the banks.

Although no official statement was issued after the conference it was understood the bankers intimated their intention to instruct local managers in the west to give sympathetic consideration to farmers whose loans mature and who are not in a position to meet them.

It also was understood the bankers promised consideration to representations made concerning loan rates. Farmers, it was believed, they said, would be able to obtain money at reasonable rates of interest. Premier R. B. Bennett represented the Dominion at the conference; Premier J. E. Brownlee of Alberta, Hon. M. A. MacPherson and Hon. W. W. Smith, Saskatchewan, and Hon. R. A. Hoey, Manitoba.

The banks of Montreal, Royal, Nova Scotia and Commerce were represented.

## Graf Zeppelin Starts On Extended Journey

Twenty-Five Passengers Taking Trip To Egypt and Palestine  
Friedrichshafen, Germany. — The Graf Zeppelin has set out on a Mediterranean jaunt to Egypt and Palestine with the intention of doing what was forbidden in March, 1922.

The Graf this trip has permission to land at Cairo and let its passengers look around a bit, but two years ago when a similar trip was projected, it was understood the British government had entered tacit objections to passing over Egypt.

There were 25 passengers aboard, among them Flight-Lieutenant R. S. Booth, who commanded the R-100 on its flight to Canada. Dr. Eckener is in command.

## Wins Grand Championship

Evelyn McMahon Wins With Entry At Stock Show In Edmonton  
Edmonton, Alberta.—A Shorthorn heifer calf, champion in the children's beef calf feeding competition, emerged grand champion gold medal beef animal of the fat stock show at Edmonton spring show on Thursday, April 9. Evelyn McMahon, of Gadsby, 13-year-old girl exhibitor, carried off the high honor, an exceptional achievement. Reserve grand champion went to George Tait and Sons, of Brandon, on a steer with a winner from the herd of Mackenzie Brothers, of Lacombe, a close runner up.

Little Miss McMahon had already won the Prince of Wales challenge shield, Edmonton exhibition trophy and \$150 in cash prizes.

## Royal Grain Commission

Chief Justice Brown May Be Appointed To Represent West  
Ottawa, Ont.—Chief Justice J. T. Brown, of the Court of King's Bench, of Saskatchewan, is likely to be the third member of the Royal Grain Commission to inquire into trading in futures. Chief Justice Brown would represent the prairie provinces.

Sir Josiah Stamp, eminent London (England), economist, has been named as chairman of the commission. The representative of the Grain Exchange will be W. Sanford Evans, Winnipeg, whose selection has already been approved.

President Of Rifle Association  
Ottawa, Ont.—At the annual meeting here of the Dominion of Canada Rifle Association, Lieut.-Col. D. R. Street, of Ottawa, was elected president. He succeeds Brig.-Gen. J. Duff Stuart, of Vancouver. Proposals for increasing the prize lists at the rifle matches to be held at Comnaught Ranges next August were approved.

W. N. U. 1885

## Chicago's New Mayor

Mayor-Elect Cermak Busy With Re-Organization of Municipal Government  
Chicago.—Speedy re-organization of Chicago's municipal government was promised by Mayor-elect Anton J. Cermak.

The new mayor will have a working majority in the city council, considerably enhanced by victories which accompanied his own success. Thirty of the city's 50 aldermen are Democrats. Nine of the 20 Republicans were classed as allies of Mayor Thompson.

"What are you going to do about Al Capone?" British reporters asked on the phone.

"I understand he is out of town," replied Cermak, "and my advice to him is to stay out for the next four years. He is in Chicago here you know, and I suggest that he stay in Florida, that's where he belongs now."

Cermak laughed when the London writers asked about Thompson attack on the King.

"He didn't really fool you people, did he?" chuckled the mayor-elect. "No, he isn't really anti-British. The British vote is the smallest in Chicago, he decided to pick on the British King. No, I haven't anything against King George or any other king."

## Importance Of Wheat Conference

Robert Gardiner Says Hopes Of Western Agriculture Depend On Outcome  
Calgary, Alberta.—Upon the outcome of the wheat conference in London, England, next month, the hopes of western agriculture depends, according to Robert Gardiner, U.F.A., president and leader of the Progressive group in the House of Commons. Much will depend upon the mutual arrangement for the division of available markets. The solution, he thought, would be an arrangement by Canada, United States, Russia, Argentina, and Australia to permit orderly marketing of the export surplus of each of these countries to their mutual advantage. This, if developed, would involve development of centralized marketing from Canada, possibly under government auspices.

The other alternative would be a compulsory pool, Mr. Gardiner said, although he had been opposed to this method.

## Reduced Railway Fares

Dramatic Cut For Summer Week-End Trips Is Announced  
Montreal.—Dramatic cuts in fares on Canadian railroads for the summer week-ends were announced by C. T. Riddell, chairman of the Canadian Passenger Association, after a series of conferences. The new scale will go into effect May 1, and will run through June and July. The new round trip fare from Friday noon till Monday midnight will be only one and one-quarter times the present single fare.

The reduction will be of special benefit to those passengers wishing to week-end in the country.

The present round trip fare for 100 miles is \$6.20 and under the new week-end rate will be only \$4.25.

The reductions will apply between all stations in Canada and will commence with the first week-end in May.

## No Cancellation Likely

Serious Hardships Would Attend Reduction In Air Mail Service  
Ottawa, Ont.—It is unlikely there will be any cancellation of existing air mail contracts it was stated on excellent authority here. The need for exercising economies in the post office department, coupled with the necessity for overhauling some of the \$5,000,000 deficit with which the department completed the fiscal year, had given rise to the expectation that the government would reduce some of the unremunerative services, in which category the air mail service is understood to fall.

Cancellation of the contracts, however, would have entailed considerable hardship inasmuch as in the expectation of a continuance of the services, several companies had incurred large capital expenditures in establishing air transportation organization.

Hangar To Be Rebuilt  
Winnipeg, Man.—Plans for rebuilding of the Western Canada Airways hangar here, destroyed by fire a short time ago at a loss of about \$200,000, have been completed and tenders on the construction called for. The new hangar will be about the same size as that destroyed.

## Cost Is Prohibitive

Winnipeg-Calgary Air Mail Letters \$37 Each Is Report  
Calgary, Alberta.—Air mail letters between Calgary and Winnipeg are costing on an average \$37 each, according to statements made here by Dr. G. D. Stanley, M.P. for East Calgary, who has just returned from Ottawa.

Government investigations have revealed the prohibitive cost of the present air mail service, he said, and these surveys show that Calgary sends two letters by air for every one sent by Winnipeg.

## Canadian Wins Medal

Honor Goes To Deputy Minister Of Department Of Mines  
Ottawa, Ont.—A signal honor has been conferred on Dr. Charles Campbell, deputy minister of the Department of Mines. A cable from London announced that he had been awarded this year's gold medal by the British Institution of Mining and Metallurgy. One medal is awarded each year to the person, without regard to nationality, whom the institution decides is the most deserving.

## ARGUE QUESTION OF RESOURCES COMPENSATION

Ottawa, Ont.—The amount of compensation to be paid to Saskatchewan and Alberta by the Dominion for alienation of their natural resources from 1905 to October 1 last, the date of return, may be decided upon by the same commission for both provinces. This suggestion, it is understood, was under consideration at a meeting between Premier R. B. Bennett; Hon. T. G. Murphy, Minister of Interior; Hon. M. A. MacPherson, Attorney-General of Saskatchewan, and Premier J. E. Brownlee, of Alberta. No official statement, however, was made.

Under the respective agreements between the Dominion and the two provinces, entered into more than a year and a half ago, the amount of compensation to be paid to Saskatchewan and Alberta for alienation during this period was not fixed. Commissions were to be appointed and, in the case of Alberta, one was named, but no such step was taken in regard to Saskatchewan. What the personnel of the commission would be if the same body is to function with regard to both provinces is uncertain at the moment, assuming that such a suggestion is acted upon.

Further discussion will take place on this point and in the matter of the turning over by the Dominion of certain records to these provinces. In addition, Saskatchewan has an appeal pending before the judicial committee of the privy council asking for an accounting by the Dominion in respect to the administration of that province's natural resources prior to 1905.

## SAYS RUSSIA DOOMED

W. E. Clifford, Montreal engineer, recently arrived from Moscow, U.S.S.R., who declares Russia is despotically controlled by Communist fanaticism, and that the country is doomed to failure.

## Projects For Churchill

Two Million Dollars Worth Of Building Material Being Assembled  
The Psa, Man.—Two million dollars worth of building material is being assembled and plans are under way for the employment of 1,000 men for work on the 2,000,000 bushel elevator project at Churchill, terminus of the Hudson Bay Railway.

Material is being assembled in Winnipeg and 30 trains of 40 cars each will be required for the shipment of steel and equipment to Manitoba's seaport. Work on the elevator project will be well underway by July 1, contractors stated.

Churchill will have its first hotel this summer and the first test shipment of grain will be made from the port in September, according to Hon. D. C. McKenzie, Minister of Natural Resources. No "boom" conditions will be permitted.

## Soviets Extending Air Service

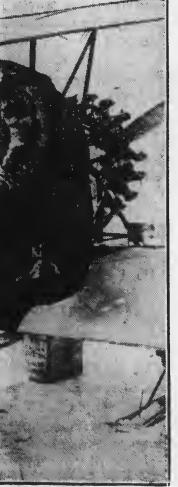

Amidst Civil Aviation Program Announced By Government  
Moscow, Russia.—Coincident with the opening, May 1, of several Russian passenger and mail aero lines, the Soviet Government announced an ambitious civil air program. Some 13,000 student aviators are in training and a total of 172,000,000 rubles is budgeted for civil aviation in 1931. Plans call for extending the passenger and mail lines over 25,000 miles and installing fifty new aerodromes and 250 landing fields.

## Viscount Secures Motor License

Ottawa, Ont.—Viscount Duncannon, son of the Earl of Beasborough, lost no time on his arrival in Ottawa in securing his license to operate an automobile. The Governor-General and his family arrived at Rideau Hall shortly before noon. Four hours later Viscount Duncannon was at the office of motor license to secure his permit.

## RUSH ANTITOXIN BY PLANE

Chief Pilot Joe Croson (in fur flying kit) of the Alaskan Airways, loading antitoxin aboard his fast mail Stearman 'plane before making a dash to Point Barrow for the relief of diphtheria-threatened Eskimo residents. Three are reported as already seriously stricken with the disease. The plane was commissioned for the fight by Alaska Territorial Health Commissioner Dr. Vignier. Dr. Henry Greis, Presbyterian missionary physician at Barrow, performed the inoculations.

## Doubts Quota Policy

British Miller Thinks Wheat Scheme Is Too Dangerous  
London, England.—John Westgate, of Liverpool, who is an officer of the National Association of British and Irish millers, is inclined to doubt the report that the government is considering the imposition of regulations restricting British millers to take 15 per cent. of requirements from wheat growers in the United Kingdom.

No definite scheme has been submitted to the millers by any political party, he said.

"It is perfectly certain that no legislation is possible without the millers' agreement," said Mr. Westgate. In an interview with the Manchester Guardian, "The quota system is far too dangerous to be acceptable. And the English wheat policy at present is insufficient to constitute a 15 per cent. quota."

## Anglo-German Conference

Matters Of Vital Importance Will Be Discussed  
London, England.—Matters of the utmost importance in European policies will be discussed from June 5 to 9, when Chancellor Brüning and Foreign Minister Julius Curtius, of Germany come to England for a conference with Premier MacDonald and other British statesmen.

Among the questions expected to be considered are general disarmament, especially in relation to the Geneva conference early in 1932, and the Austro-German economic pact, but no topic of significance to European politics is likely to be barred.

Official British circles take very calmly the suggestion that other European powers had been somewhat rattled by the exclusive nature of the conference.

## WIDER POWERS ARE SEEN FOR THE DOMINIONS

Ottawa, Ont.—Statute of Westminster has been approved by representatives of the nine provinces of Canada. The adoption of this proposed act, however, will contain definite safeguards of the Canadian constitution. This section, which was left to Canada to draft, ensures that the Statute of Westminster cannot repeal or amend the British North America Act.

This was the net result of the Dominion-Provincial conference which concluded here. An official statement, handed out after the conference, announced that a final draft of the Canadian clause in the Statute of Westminster was now in the hands of the provincial representatives.

While approved by the conference, this draft would be taken home for submission to the provincial governments. Two weeks has been allotted for discussion by the provinces.

Now that the clause is under consideration which will set at rest any fears that the B.N.A. Act might be altered by the Statute of Westminster, the question of how the B.N.A. Act can be changed as the occasion for amendments develops is to be taken up at some further conference in which the Dominion and the provinces will take part. This was announced by Premier Bennett.

Many changes to the act, which is Canada's constitution, defining provincial and Dominion rights, have been made from time to time, but the parties are for the most part in agreement that where a change of importance is to be made, all the provinces must consent. The conference will seek to arrive at the most satisfactory method of making changes.

Adherence to the Statute of Westminster means widened jurisdiction for the Dominions of the British Empire. It provides that the Dominion may enact extraterritorial laws. It declares the Dominion was no longer to be subject to British statutes unless they so desire. It repeals the Colonial Laws Validity Act. It gives legal approval to the claim of the Dominions to equality of status in the British Commonwealth.

If the provinces approve of the clause which was agreed on at the conference, the next step will be taken by the Dominion Government at the present session of parliament. A resolution or bill will be introduced expressing Canada's adherence to the Statute. The Imperial conference of last year agreed that the Dominions should express their attitude toward the statute by August. If there is general agreement, the Imperial parliament will be asked to pass the Statute of Westminster.

## ALBERTA WILL APPEAL DECISION ON FRAUDS ACT

Ottawa, Ont.—Alberta, supported by Ontario, will carry to the Privy Council an appeal against the decision of the Supreme Court of Alberta, holding the Alberta Fraud Securities Act, which was made here by Premier J. E. Brownlee, of Alberta, and Hon. W. S. Price, attorney-general of Ontario.

Legislation in question was enacted by the Alberta legislature following the meeting of attorneys-general of the various provinces, convened in Toronto more than a year ago at the instance of Attorney-General Price to consider steps to prevent defrauding of the public.

Representations were also made by the attorney-general of various provinces to the Dominion Government seeking to have the Federal Companies Act amended so as to give the provinces the same control over stock sold in companies holding Dominion charters as they have in respect to stock sold in companies incorporated under provincial laws. Consideration of the representations of the provinces was promised.

## Study West's Needs

Would Appoint Commission To Investigate Conditions In Western Canada  
Winnipeg, Man.—Conservatives of the legislature, opposed to a government-sponsored study that would require the Dominion to peg wheat prices, announced an amendment would be placed before the House asking for appointment of a commission to make a study of the West's economic needs. John H. Conner, a conservative member for Winnipeg, said his resolution was a declaration of policy for his party. It urges the legislature to recommend to the Dominion Government "that a commission should be established, similar to the Duncan commission in the Maritime provinces, to investigate as speedily as possible conditions in Western Canada, with particular reference to the cost of production of farm products."

Freight rates costs to western consumers of goods purchased by them; interest rates on loans and debt adjustment would also be points of examination.

In the event of the Dominion Government failing to appoint a commission the resolution urges that British Columbia, Alberta and Saskatchewan governments be approached with a view to the appointment of a commission by the western provinces.

## Has Audience With Emperor

General Sir Arthur Currie Received By Japanese Ruler  
Tokyo, Japan.—General Sir Arthur Currie, war time commander of the Canadian Corps and now principal of McGill University, Montreal, was granted an audience by the Emperor of Japan. Sir Arthur has sailed from Japan for Vancouver on his return home after an absence of several months.

Sir Arthur spent many weeks in England before proceeding to India, where he represented the Dominion at the formal inauguration of the new government building at New Delhi, February 10, and unveiled a Canadian column. He then came to the Orient. His long tour has been mostly in the interest of his health.

## Borrowers In Difficulty

Montreal.—Farmers who have attended to business are all right, only the farmers who have borrowed money and now have interest charges to carry for having sought a shortcut to prosperity through a broker's office are in serious trouble, Senator D. E. Riley, High River, Alberta, rancher, said on reaching this city.

## Old Age Pensions

Winnipeg, Man.—Old age pensions will be paid in full in Manitoba this year regardless of whether or not Prime Minister R. B. Bennett implements his promise for the Dominion to take over 95 per cent. of the cost, it was declared in the legislature by Hon. W. J. Major, attorney-general.

## Plans Pacific Flight

Tokyo, Japan.—Captain Thomas Ash, arriving in Japan aboard the liner "Heian Maru," announced he had hoped to make the first of the line of the aeroplanes of Harold L. Bromley for a projected non-stop flight across the Pacific.

The U.S. government maintains 93 schools for natives in Alaska.

**NOTES AND COMMENTS**

Novelty and variety is the spice of life. Dress up something old in a new form, and it will re-create interest. People have an insatiable desire for novelty, and he who can meet these desires in amusement, in fashions, in clothes, or automobiles or anything at all which the public use, stimulates business not only for himself but for many others who indirectly or otherwise may depend on that business. It is the creative mind that counts.

Another point which emphasizes the need for alertness in interesting the public is the fact that the population in every community changes at a rate far more rapid than most people realize. In some cases it is 25 per cent. in three years, states one authority, and investigation in almost any community would substantiate it, especially in western Canada.

Enthusiasm engendered in the mind of each individual will stimulate enthusiasm in others. Successful business men and enthusiastic executives are men of vision and imagination who put their thoughts into action. You will not find them sitting around waiting for something to happen. Thought rules if action accompanies it.

The Red Trail highway through the mountains of southwestern Alberta is a scenic route. But there is an indifference in spots locally. In the vicinity of Bellevue adjacent to the highway and in full view is the town dumping ground, ugly with refuse and tin cans. Much could be done by owners of shacks to make them presentable, for at various points as tourists travel through the mining district the view is marred by dilapidated shacks that would discredit an Indian reserve. Then over in British Columbia, one town has the unique feature of its backyards and outhouses abutting on the highway—a repellent sight for tourists. By friendly co-operation between the highway department and owners of unsightly property and those who have so little eye for beauty as to dump rubbish near the highway, there is much that can be done towards removing some of the eyesores which now with their ugliness create a horrid impression.

The Rod and Gun Club executive asked the provincial department of fisheries to allow the trout fishing season to open a month earlier than the specified time as set forth in the regulations. The director, R. T. Rodd, sent a very courteous reply, setting forth why this could not be done. It would tend to very seriously interfere with the fish in the spawning fishing, and would result in depleting the streams in the district.

The automobile has made accessible to hundreds the fishing streams of the mountains and foothills. That is the reason trout are very scarce compared with twenty years ago. There are twenty fishermen to-day for every one of a decade ago. The only streams wherein there would be good fishing are those so far removed from the usual haunts that it will require too much exertion and hard work for the mob to reach there by motor car. Proliferous restocking from the hatcheries cannot keep up with the demands made on the most frequented streams during the summer.

This is quoted from Printer & Publisher: "A newspaper, if it is to live, must live by the possession of character. Its primary business is to sell news, and to sell it at a profit, but it differs from the vendor of hardware or of boots and shoes. Its task is not to coerce or to preach or to pontificate, but it must have a soul and individuality of its own, must possess, both in the publication of its news and in the interpretation of its news, a sense of public duty, a concern for public desires, for public rights, and the public well-being. Lacking that a newspaper will die, and will deserve to."

Robert Lipsett, press writer, in his weekly news letter from Ottawa writes: "The welcoming of the Bessboroughs was a pleasant interlude to the Easter holiday. Their Excellencies measured up to the glowing advance notices. They appear to possess all the attributes of humanness and of distinction necessary to make a steel cable out of the silken threads which unite the Empire. The kids are like yours. Lord Duncannon lost his dog in Halifax and was as worried about it as your 'Bill' would be if the dog-catcher got his. Lady Moyra is thirteen and looking at the world out of saucer eyes. I miss another guess if the Bessboroughs do not find a niche among all the distinguished governors-general Canada has known."

In urging reform or change of existing economic system, it is necessary to have a well-organized policy to take its place, otherwise chaos may result.

**Arrived From Wales  
During Week**Former Conductor of Famous  
Welsh Glee Party Comes to  
Alberta to Make Home

Mr R. J. Roberts, former conductor of the well known Welsh musical organization, the Shotton Welsh Glee Party, arrived this week from Chester, Eng., and will remain here for the present with his son Elgar, who has been engaged in music teaching since last year. In reporting his departure, the Chester Chronicle stated that "he takes with him across the Atlantic the best wishes of a host of friends in Flintshire and Denbighshire, and Flintshire music owes him a tremendous debt and his place will not by any means be easy to fill. Whilst conductor of the Shotton Welsh Glee Party, they smashed the records by capturing three first prizes at the Barry National Eisteddfod, and won numerous laurels in various parts of the country."

The glee party appeared in 150 concerts under his baton in various parts of England and Wales. He is also an accomplished voice teacher, pianoforte teacher and pianist, and many of his pupils have reached a very high mark of efficiency.

At present Mr. Roberts is the guest of Mr and Mrs. Robert Evans.

# Need For Adjustment Of Weights Of Hogs Marketed To Conform To Requirements

Time and experience are great teachers—but only for intelligent people. The official grades for hogs have been established a considerable length of time and production and marketing under the system have now been carried on during wide variations in conditions both as affecting production and the manufacture and distribution of the product.

For years conditions in production were such that producers were all the time inclined to put their hogs on the market in a somewhat unfinished condition. The results were, too big a percentage of light hogs and many otherwise good hogs within the prescribed weights yielding thin bellies. As the belly makes the valuable breakfast bacon this weakness in the product was important.

In a system of grading hogs alive the determination of whether a hog was finished or not was exceedingly difficult. However, comparisons of live gradings with dressed tests revealed the fact that most of the thin bellies came from the lighter hogs within the bacon grades. Therefore, to secure the proper quality in the high grade product, it was agreed to raise the minimum weights of the bacon grades ten pounds.

But producers were anxious to maintain the spread between the minimum and maximum weights of the grades and it was at the same time agreed that the maximum weights should also be raised ten pounds. Packers always regretted the inclusion of these heavier weights within the better grades of hogs was dangerous, because demand for hams, backs or breakfast bacon for the domestic market or of Wiltshire side bacon for the export market of the weights that hogs from 220 to 230 lbs. yielded was very limited at the best prices. However, as the numbers of hogs of these weights were not at the time in such great supply as to constitute a burden, the producers' requests were acceded to. And as long as these conditions prevailed no harm was done.

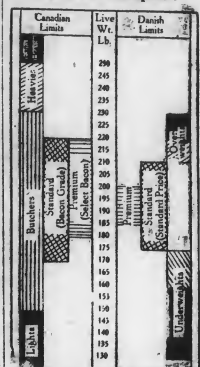

This year we have run into producing conditions which have proved that in the effort to correct the former condition the proper limit of weights was over-reached. An excess of weighty hogs in all of the three main grades has seriously affected the sale of the product and has been a very depressing factor in the market. It is also very dangerous from the standpoint of our prospective entry into the export market.

There is, therefore, a need for an adjustment of the weights of the bacon and select bacon grades to 180 to 220 lbs. at the farm or fed and watered, and of the butcher grade to 150 to 230 lbs. and when and if conditions should in the course of some years again make desirable a slight swing of 10 pounds in the weights it would appear reasonable that arrangements should be made so that this could be done expeditiously. But producers plead that there should be stability in the weights for each grade. Insistence on absolute stability will not work to the advantage of the producer or of the industry as a whole, but if this view is to prevail then undoubtedly the weights will require to be moved back to those that will, on the average, give the desired product, and be left there. The weights from 180 to 220 lbs. at the farm, or fed and watered, yield the Wiltshire cuts from 55 to 65 lbs. that are in demand and the weights of hams, bellies, backs and loins that are most desired by the domestic consuming trade. Then, when feeding conditions change and there is again a tendency for considerable percentages of unfinished hogs to come to market, these will have to be excluded from

the higher grades by rigid grading of the lower weights for quality.

In connection with standards of weights the accompanying chart showing a comparison of ours with the Danish standards is very illuminating. The Danish standards, it will be noticed, are very much narrower than ours. Their standard grade on a live basis weighs from 175 to 210 lbs., and their premium hog only from 185 to 200 lbs. The Danes discount all hogs under 175 lbs. and over 210 lbs. These weights are calculated from dressed weights at the factory and would be for reasonably empty hogs. They would correspond more nearly to our weighed off car weights, which are ten pounds lighter than our farm or fed and watered weights.

## Hog Grades Compared

The chart compares the weight limits of the official grades of hogs in Canada and Denmark. It will be noticed that the grade equivalent to our "Select Bacon" for which the Danes pay a premium has a spread of only 15 pounds—from 185 to 200 lbs. against our 40 lbs. The Danish standard grade, equivalent to our bacon grade, has a spread of only 35 lbs. against our 50 lbs. There is no grade in the Danish system equivalent to the butcher, but overweight and underweights start directly from the standard with, in each case, a discount in price. The Danish grades do not provide any place for hogs under 130 lbs. or over 230 lbs.

## Fruits Are Preserved By Quick Freezing

And British Columbia Is Experimenting With Green Peas

Some interesting observation with respect to the application of "quick freezing processes" to perishable fresh fruits and vegetables is contained in a recent news letter of the Dominion Cold Storage Branch. Tests recently made with peaches show that the process preserves all the original nutritive values and mineral salts with no evidence of loss of valuable chemical constituents or flavor. The process seems to keep the fruit absolutely fresh, in fact, 40 out of 42 "tasting tests" reported the "frozen" peaches more juicy, sweeter and of better flavor than that of "fresh" peaches.

In British Columbia experiments are being made in the "rapid freezing" of green peas in small cartons. These peas will be held in storage at a temperature of 35 degrees Fahrenheit below zero until marketed next winter.

## United States' Largest Cities

In 1920, the United States had 68 cities with a population over 100,000; the latest census gives 93; and these 93 contain more than one-fourth of the total population. New York City heads the list with its 6,938,792. The 10 largest cities are New York, Chicago, Philadelphia, Detroit, Los Angeles, Cleveland, St. Louis, Baltimore, Boston, Pittsburgh.

## Canadian Copper Ore

Copper ores of various kinds, including the native metal, are found at many places throughout Canada, but only the sulphide ores are commercially important.

The world's earliest farmers lived in the New Stone Age about 10,000 years ago.

The speed of light never changes, experiments indicate.

## Western Indians Are Raising More Stock

Industry Has Developed Rapidly In Last Few Years

The stock-raising and farming of the Indians of the western provinces has developed rapidly in the last few years, says W. M. Graham, Indian commissioner.

Thirty-five bulls were purchased at Regina and 11 at Brandon, he stated, and a large number were bought at the Calgary Fair.

"These bulls are paid for from a fund created by the Indians themselves," he said. "Each Indian pays so much into the fund every time he disposes of an animal from his herd. It is well known that the Indians have some of the finest cattle in the Western provinces and have taken prizes at many shows held at different places.

"They own more than 20,000 head and dispose of between 3,000 and 4,000 head every year. The estimated calf crop this year is expected to be between 6,000 and 7,000 head.

## BETTY BARCLAY'S 'HELPFUL HINTS'

TODAY BETTY SAYS:

There's a bumper crop of small and medium sized oranges out west this season and prices are pleasingly low. The economical housewife buys large quantities of these sizes in place of her usual order for one or two dozen large oranges. With these in stock, she can prepare dozens of tasteful fruit cups, salads and desserts—and of course see to it that each member of the family secures his or her morning fruit juice.

Purchasing in quantity means a real saving with many foods, particularly with those that will keep for some time. Study your markets and you can save considerable.

## Waterlee Peace Prize

Sir Eric Drummond Is Awarded Prize For 1931

Sir Eric Drummond, secretary-general of the League of Nations, announced his acceptance of the Waterlee Peace Prize for 1931, awarded by the Carnegie Foundation.

Sir Eric asked the directors to present the accompanying money award of approximately \$12,500 to some institution furthering the ideals of the league. Thereupon it was awarded to the International Federation of Nations Associations at Brussels.

Nearly \$30,000,000 has been expended by the city of Oslo, Norway, in recent years, in municipal housing construction.

## LOST ON NAUTILUS' FIRST SEA VOYAGE

Willard Grimmer, quartermaster aboard the "Nautilus," submarine in which Sir Hubert Wilkins heads an expedition under the north Polar ice, who fell overboard from the undersea craft and was drowned at the entrance to New York Harbor, upon the submarine's first sea voyage. He is shown above pointing out interesting features of the "Nautilus" to his young wife just prior to the craft's sailing for Camden, N.J.

## CHINESE MEMBER MISSIONARY

Mrs. Victoria Miller of Glendale, Calif., who was one of two women missionaries reported murdered at Yankai, China, while they slept, by hatchet blows believed delivered by discharged servants.

## Market In The Orient

Sees Solution Of Economic Problem In Trade With Asia

Asia was the unexploited part of the earth toward which industry should now bend all its efforts for marketing, R. J. Cronie, publisher of the Vancouver Sun, declared before the Advertising Club of Montreal, recently. Bankers of the world should find a way of re-establishing silver at some fixed level of value or giving Asiatic people currency that would be good for world commerce in order to facilitate their buying, the speaker declared.

"A sick world economically is no different from a sick industry or a sick individual in the treatment required, except that to cure successfully depressed world conditions it is necessary to think in an international way. You and I as individuals are helpless to restore the buying power of silver countries like China and India, which will in turn restore the buying power of Europe, and set in motion the huge surpluses that are piled up all over the United States and Canada, and the world's business depression will not be lifted until we start these surpluses moving," Mr. Cronie said.

## Spruce and Balsam Cones

The cones of the spruce hang down from the branches; those of the balsam fir (or "balsam") stand upright. The species are thus easily distinguished when the trees are bearing cones, states the Dominion Forest Service of the Department of the Interior. The two species mentioned are the ones chiefly used in the manufacture of wood-pulp.

## A New Life-Saver

Among the new life saving apparatus to aid people at sea is a specially designed balloon float which is provided with a hole through its centre, permitting the float to be slipped over the barrel of an ordinary shotgun using a blank cartridge. The float can be projected accurately to a drowning person 150 feet distant.

The human body is 60 per cent. water.

# Splendid Services Of The Community Doctor In West Noted By American Investigator

## Demand For Better Beef

Well Finished Young Cattle Means Money To The Producer

The beef grading service of the Dominion Department of Agriculture, which is closely in touch with consumer preference for beef, recently stated: "One thing clearly apparent in the market at the present time is the demand for better beef." The market preference today, the Department adds, is for well finished young cattle weighing around 900 to 950 lbs. live weight, dressing out around 525 lbs. This type of animal, properly finished, means money to all concerned.

## Skill Of Modern Surgery

Young Man Born Blind Recovers His Sight

The skill of modern surgery has brought the wonders of sight to Earl Musselman, 20-year-old student at the Pennsylvania Institute for the blind. Born without pupils in his eyes he had never seen the light until recently, when, weeks after a delicate operation had been performed, the bandages were removed from his eyes. He could see, after a life of darkness.

## A LIGHTWEIGHT WOOLLEN SPORTS FROCK

It is adorably smart in black and white, with a yellow silk crepe vest. It achieves a slenderizing silhouette through clever use of diagonal lines. The cross-over bodice with side closing conceals breadth through the waistline and hips.

The neckline is especially becoming. The surprise vestie lends a smart softness to the bodice. Style No. 926 is easily copied. The saving will amaze you. It comes in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust.

Navy blue flat crepe with white crepe vestie is youthfully smart and wearable.

Printed flat crepe silk is also suitable for this model. Make the vest of plain blending crepe. Size 36 requires 3 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The community doctor serves 32 rural communities in Saskatchewan on a full time or part time basis, according to a report made by Dr. C. Rufus Rorem to the committee on costs of medical care, at Washington, a private organization which is making a five-year survey of the financial end of medicine. These Saskatchewan country doctors as well as three physicians employed for their full time by three municipalities in Manitoba, are paid out of public funds.

Dr. Rorem in his report says: "Saskatchewan has for some years taken the lead in the Dominion of Canada in the matter of sanitation, immunization against contagious diseases and other preventive measures and has recently inaugurated a system by which all residents of the province requiring hospitalization for tuberculosis and medical care at no direct cost to themselves."

Municipal doctors, Dr. Rorem found, were usually hired when communities found their existing medical services were inadequate or too costly, or when physicians who had previously served them died or moved away.

Dr. Rorem said the average salary of the full-time physicians in Saskatchewan is \$4,000 and to this many physicians were able to add considerable sums through fees which they were allowed to charge.

"In general way," he said, "physicians appear to consider their net incomes are larger under the municipal doctor system than in private practice in the same localities."

No rural municipality which had adopted the municipal doctor system has gone back to the private practice basis.

## Preference For Canadian Wheat

Britain May Make Offer Of Coal In Exchange For Wheat From Dominion

Quota preference for Canadian wheat in the British market in exchange for a Canadian market for British anthracite coal will be one of the proposals advanced by the British Government at the Imperial Conference to be held in Ottawa during the summer, according to an editorial forecast in the London Daily Express.

"Well done, Socialists," comments the editorial, in reference to the presumably reliable report that the Labor Government intends to give the British farmer a quota on his wheat. Under the proposed scheme the use of at least 10 per cent. British flour in all bread would be made compulsory. But the newspaper anticipates the government will not stop there. "They have every intention," it says, "of going to the Imperial Conference at Ottawa this year, determined not to repeat last year's fiasco. Canada too will be offered a wheat quota. The price asked will be a Canadian market for British anthracite coal."

## Canadian Cheese, Milk and Ice-Cream

The consumption of cheese, milk and ice-cream is increasing in Canada. In 1921 the average used per head of population was 231 pounds of cheese; 240.1 pounds of milk; and 5.26 pints of ice-cream. In the following seven years this increased to a per capita consumption of 3.54 pounds of cheese; 470.2 pounds of milk; and 7.95 pints of ice-cream.

## First Woman Flier

The first female aeronaut was one Madam Tibe or Thibbe. She joined the painter Fleurant aboard a balloon, called the Gustave, which ascended at Lyons, France, on June 4, 1794, in the presence of the royal family of France and the King of Sweden.

"Was it a dangerous operation?" "Why not? Do you think a doctor would perform a dangerous operation for \$5?"—Guttera, Madrid

"That rascal boy of mine didn't want his dinner! So to punish him I sent him to bed without it."—Mous-tique, Charleroi.

**DEMURE LITTLE MISS APPEARS IN PRINT**

Today's bolero model is youthful in style and colouring. It's fascinating in soft yellow and blue challis-like wools, so lovely for Springtime without a topcoat. The collar of course, like all the French models, is of white pique. It is hemmed with professional precision, separating the scallops to give a petal-like effect.

And to add to its attractiveness, it is accompanied by matching bloomers with knee bands.

Style No. 200 is designed for girls of 6, 8, 10, 12 and 14 years.

Crepe de chine prints, tweed-like cottons, wool crepe, wool jersey, rayon novelties and linen are also perfect mediums for this adorable dress.

It is easily fashioned! The small expenditure will surprise you!

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coupon carefully.

(By Betty Barclay)

**SUGAR COOKIES**

2½ cups sugar, sifted.

2 teaspoons baking powder.

¼ teaspoon nutmeg.

½ cup butter or other shortening.

1 cup sugar.

2 eggs, well beaten.

Grated rind 1 lemon.

1 tablespoon cream.

Sift flour once, measure, add baking powder and nutmeg, and sift together twice. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add eggs, lemon rind, and cream, and beat well. Add flour, a small amount at a time. Beat after each addition until smooth. Roll into thin sheet on slightly floured board. Cut with floured cookie cutter and dredge with flour. Bake in hot oven (425 degrees Fahrenheit) about 7 minutes. Makes 2½ dozen cookies.

**CELERY SAUCE**

Cook ½ cup chopped celery in 1½ cups salted boiling water 20 minutes. Drain, reserving both liquid and celery. Melt 1½ tablespoons butter, add 1½ tablespoons flour, and when smooth add the reserved celery liquid with enough more water to make 1 cup. Stir and boil 1 minute. Add the celery, bring to boiling point, season to taste with paprika and more salt, if necessary, and keep over hot water until ready to serve. Just before serving, add 1 egg yolk and ¼ cup cream, stir and cook 2 minutes.

"Women," said little Harold, "are always doing something to break a feller's heart."

"Yes," said little Jerry, "my sister's beau just started giving me small change every Sunday, and then she married him."

## SUNDAY SCHOOL LESSON

APRIL 19

THE RICH MAN AND LAZARUS

Golden Text: "Lay up for yourselves treasures in heaven, neither moth nor rust doth consume, and where thieves do not break through nor steal."—Matthew 6:20.

Lesson: Luke 16:1 to 17:37.

Devotional Reading: 1 John 3:13-18.

Explanations and Comments

The Parable of the Rich Man and Lazarus, Luke 16:19-31. We call this rich man of the parable "Dives," making use of the Latin word for "rich man." Dives was clad in purple and fine linen; his outer garment was dyed purple, and his inner garment was made from a sort of flax that grew on the banks of the Nile, so finely woven as to be almost transparent. "Purple and fine linen" is a phrase used to this day for luxury and ostentation.

"We remember with sorrow and compassion the idle rich, who have vigor of body and mind and yet produce no useful thing. Forgive them, Heavenly Father, for loading the burden of their support on the bent shoulders of the working world. Forgive them for wasting in refined excess what would feed the pale children of the poor. Forgive them for setting their splendour before the thirsty hearts of the young, luring them to theft or shame by the light of eye and flesh. Forgive them for taking pride in their selfish lives."—Walter Rauschenbusch.

Lazarus (the name is a contraction of Eleazar, "Helped of God"), was a beggar who was brought to the rich man's gate, where he hoped to be fed from the crumbs that fell from the rich man's table. So helpless was he that even the dogs came and licked his sores. Wretched dogs roamed the streets and lived upon the garbage that was thrown out from the houses. The suggestion is that the dogs were kinder than the rich man, or else that they increased his misery by rasping his sores.

When the beggar died, he was carried away by the angels into Abraham's bosom. "Abraham's bosom" is a Jewish name, not of heaven, but of an intermediate state of bliss, in which the souls of the just await the resurrection. In his parable Jesus made use of the well-known biblical fancies—angel bearers, Abraham's bosom, the two divisions of Hades, the separation and yet communication between them—but his doing so does not mean that he accepted these fancies for the truth. His purpose in his story was not to reveal the nature of the life hereafter, but to teach that retribution overtakes the sinner, and in doing this he deliberately adopted the picture language then current which admirably suited his purpose.

The rabbi said, "The fire of Gehenna has no power over the sinners of Israel, for Abraham descends and rescues them from it." In accordance with this thought, the rich man, who had also died, appeals to Abraham from his place of torment, to beg him to send Lazarus to his aid, if only with water on the tip of his finger. But Abraham said, "Remember that in his lifetime he had had the good things while Lazarus had had the evil; now Lazarus is rewarded while he's punished."

## Synthetic Air

Better Than Natural Air, According To Scientists

Science believes it can give mankind synthetic air to breathe that is better than the natural atmosphere, the American Chemical Society was told.

Professor J. W. Hershey, McPherson College, McPherson, Kas., said experiments have shown that life can be sustained more healthfully with a chemically concocted atmosphere, which can be manufactured and introduced in office buildings, airplanes and submarines, than with the nitrogen-oxygen that surrounds the world.

Experiments with white mice showed that in some cases they lived more healthfully in helium-oxygen than in nitrogen-oxygen, Professor Hershey said.

A strangely mottled discoloration which attacks otherwise healthy teeth of children in certain parts of the country, notably Texas, is due to the chemical element fluorine, according to R. V. Churchill, who described his investigations before the convention.

The fluorine discoloration, which apparently does not cause tooth decay but is located under the enamel, comes from the fluorine element sometimes present in drinking water, Churchill said.

South Africa's record gold production in 1930 is continuing this year.

## Granny Rides a Motorcycle

Sixty-Year-Old English Woman Is Quite An Enthusiast

In the face of the displeasure of her grandchildren, Mrs. Clara Brown, aged 60, recently rode from Lenington to London on her motorcycle to attend the annual dinner of the London Ladies' Motor Club, in honor of Sir Malcolm and Lady Campbell and other racing drivers. She rode in overalls and waders, with her dinner gown strapped on the handle bars. Three years ago Mrs. Brown took part in a six-day motor trial and recently won a Concours d'Elegance, wearing a riding outfit which she made herself.

## Apples in Egypt

Canadian Apples Are Being Well Received in the Cairo Market. The market for Canadian products, particularly apples, is ever widening. Recent reports indicate that a potential market of considerable interest to Canadian growers is available in Egypt. Canadian apples are being well received in the Cairo market, selling at around \$4.88 per box. They have not only won recognition as the best apples coming onto the Egyptian Market, but apparently they can be laid down there at a price which makes them more attractive than other fancy pack importations from the United States—Dominion Department of Agriculture.

## On Threshold of Discovery

Dr. John Anderson, formerly of the London school of tropical medicine, died at Shanghai, China, after an operation, just when he believed himself to be on the threshold of a crowning achievement in his research into cerebro spinal meningitis. It is understood he succeeded a short time before in isolating the meningitis germ.

Regular air service between Europe and Australia is being considered.

### Personal and Local

Mrs. W. Milley was a Lethbridge visitor during the week.

Verda Plante is around again after six weeks illness.

V. A. Bowes, assistant district passenger agent, C. P. R., was a visitor in the Pass towns this week.

Mrs. A. E. Larke has been ill during the week with a severe attack of influenza.

Mrs. W. Bell, Mae and Margaret, and Florence Cadry, motored to Calgary for a few days visit.

E. D. Battrum, municipal auditor, was here during the week on business at the town offices.

Mr. and Mrs. D. O. Macko were recent visitors by car to Calgary, visiting Mrs. Macko's parents.

Mrs. Price is visiting for two weeks in Calgary, accompanying her daughter, Mrs. A. E. Graham on her return to the city.

"Africa Speaks" is an exceptionally fine picture to be shown at the Palace this week end, commencing Thursday evening.

Money saved is as good as money earned, especially in the things you buy every day for the home. Look up the grocery specials of Coleman stores in this paper.

Mr. R. J. Roberts has been appointed conductor of Coleman Glee Club, and his son Elger will be pianist. The latter very efficiently acted as conductor since re-organization.

John Wojciechowski of East Coleman died on April 14, and was buried on Thursday last, in Coleman cemetery, service being held in Holy Ghost church, Rev. Fr. Lehman officiating.

Frank Celli is at Creston preparing for the growing season on his fruit farm. Do not infer that Frank is preparing to grow; he has already reached the limit in height and girth.

The dance revue given by the pupils of Miss Eileen Jones in the K. of P. hall on Monday evening was well attended by parents and friends of those taking part. Pupils from Blairmore also took part, helping to give a very fine program.

Suitably printed, black bordered acknowledgement cards, with envelopes to match, may be obtained at The Journal office. They are very appropriate in personally acknowledging flowers, letters of sympathy, etc.

Plate engraved visiting business cards may be obtained at The Journal office. 16 samples of neat engraved types to choose from. If you have plates already, leave your orders here for printing at city prices. Prices on request.

For your household wants, order from the following advertisers in The Journal: Ledieu, Klyke Co., Coleman Cash Grocery, Pattinson Hardware, Coleman Hardware Co., McBurney's Drug Store, Antrobus' Shoe Store, Coleman Trading Co., Coleman Bakery.

Reserve your seats early at Rush-ton's for "It Pays to Advertise" on Friday night at the Opera house, and thereby ensure having a good seat and avoid delay the night of the play. There is a limited number on sale, many already having been taken.

To make up for the issues of The Journal that were missed by non-publication, the time on subscribers' accounts will be extended to correspond. Several expressed disappointment at the issue not appearing at the regular time, but circumstances compelled us to cancel last Thursday's issue.

### Relief Work for Unemployed Starts

**Car Owners Asked to Volunteer to Convey Men to and From Work**

Men from Coleman have been employed in turn with others on road work east of Blairmore. They work ten hours a day at 40c per hour. The men from Coleman are conveyed to and from the work by car owners. This week Geo. Pattinson, J. M. Allan and J. M. Rushton have volunteered. Next week it is expected three other car owners will volunteer to convey the men. They have to be on the job by 7 a. m. and quit at 6 p. m. Constable Houghton should be notified so that schedule can be arranged. The working hours are long and if the men had to walk to and from work they would be on the go from 5 in the morning till 8 or 9 in the evening.

#### OUR QUESTION BOX

Reta Ash wins the year's subscription to The Journal in the "Question Box" answer. Here it is: "Sennacherib was king of Assyria, son of Sargon, whom he succeeded on the throne in 705 B. C., and reigned until his death in 681 B. C. He had many successful wars against Egypt, Armenia, Phoenicia and Media."

Others from whom answers were received were Fernie Dickson, John Nelson, Alberta Phillips, Owen Dunlop, Vernon Brown, Charles Maurer, Delbert Fleming. Watch the next issue for another question.

French Organ die notepaper and envelopes for ladies correspondence may be had in the following colors: Mauve, Rose, Corn, Grey, white parchment and linen finish. With your name neatly printed on same, a cabinet of notepaper and envelopes for \$3.50 is remarkably good value.

Several boys were given suspended sentence in the juvenile court by Magistrate Gresham for stealing from C.P.R. cars.

The Rod and Gun Club will hold a meeting in the Council chamber on Sunday, May 3, at 11.30 a. m. All 6-hermen are urged to attend this meeting.

You'll enjoy an unexcelled evening of entertainment in seeing the play "It Pays to Advertise!" by Coleman Players. Eleven local people are in the cast, and it is without doubt the best production they have attempted.

#### CLASSIFIED ADVERTISEMENTS

FOR SALE—English style baby buggy, in good condition. Apply to Hirst, Oddfellows Hall.

FOR SALE—J. R. Giants eggs, well bred, \$1.50 a setting, also bronze turkey eggs, 35c each. Apply to J. Ancelet.

SAFETY RAZOR BLADES—Re-sharpened, 25c a dozen. Send blades with cash to Daniel McNaughton, Natal, B. C. Quick service by return mail.

LOST—A parcel from car containing wearing apparel, between Third street and Caribou, on April 18. Finder please return to Journal office or Mrs. A. Dewar's house.

### Local News

James Ford, town clerk, states that he knows Manager Chapman of Huddersfield football team, which will visit Canada shortly. They went to school together, but he did not state if they also played "hooky" together.

Visitors from Coleman to the Badminton Club dance at the Marquis hotel, Lethbridge, were Mr. and Mrs. A. F. Short, Mr. and Mrs. Sid Short, Major R. F. Barnes, Mr. and Mrs. L. Lindor, and R. Shone. There were many visitors from Medicine Hat, and a tournament was held over the week-end.

Miss Madeleine Chardon, of Blairmore, intends taking a three months vacation tour this summer to Europe, leaving Montreal early in July, and visiting Glasgow, Edinburgh, London, Berlin, and other European capitals. On completion of her tour at Paris, she will visit for a month in southern France, returning early in September via New York.

Blank counter check books may be obtained at The Journal office, or you can order them printed, at factory prices, from wholesale price list.

Cornel Chas. A. Hodgetts, director general of St. John Ambulance Association in Canada, will examine teams from Coleman and Michel, which are entered in the provincial and Dominion trophy competitions. The team from Coleman includes J. Kilgannon, M. Cornett, A. Fauville, G. Hoyle and J. Cousins, captain.

Walter S. Purvis, former secretary to O. E. S. Whiteside, general manager of International Coal & Coke Co., Ltd., who for two years has been living at North Bend, Oregon, has been appointed to the sales force of the company, and will probably make his headquarters in Regina, in order to cover the prairie provinces. He was accompanied on his return here by Mrs. Purvis, who was a member of the Shamrock (ladies) hockey team, which played at banquets winter carnival in 1928.
